## National Recovery Month (September 1st-30th)

Prevention Works • Treatment is Effective • People Recover

National Recovery Month (Recovery Month) is a national observance held every September to educate Americans that substance use treatment and mental health services can enable those with a mental and/or substance use disorder to live a healthy and rewarding life.

Recovery Month celebrates the gains made by those in recovery, just as we celebrate health improvements made by those who are managing other health conditions such as hypertension, diabetes, asthma, and heart disease. The observance reinforces the positive message that behavioral health is essential to overall health, prevention works, treatment is effective, and people can and do recover.

The 2018 Recovery Month theme, "Join the Voices for Recovery: Invest in Health, Home, Purpose, and Community," explores how integrated care, a strong community, sense of purpose, and leadership contributes to effective treatments that sustain the recovery of persons with mental and substance use disorders.

We have about half of our members who have responded. It would be appreciated if you have not sent your contact information to please do so in the next couple of weeks. You can send it to Catherine at: [media@ccsap.org](mailto:media@ccsap.org). Thank you so much for your cooperation!

## Soliciting for CCSAP Task Force News and Activities

With Hurricane Florence causing quite a disturbance in our normal day-to-day lives, the Task Force meetings have not been held. Please let Kelli and/or Catherine know once things have settled and when you will start to hold your Task Force monthly meetings.

We also would love to promote any news or activities the Task Forces are continuing to work on.

Prayers to everyone during this hard time, as Hurricane Florence has been a devastation to us all.
